# CPCCE3029 Remove Friable Asbestos

Release #: 1 | Release Date: 04/02/2026

## Course Description

This unit of competency specifies the outcomes required to remove friable asbestos containing material (ACM).

It includes preparing, containing and removing friable ACM, and knowledge and application of decontamination and disposal requirements.

Site location can be a real workplace or simulated environment that may include domestic or commercial premises; a demolition site; or an existing structure being renovated, extended, restored or maintained.

Project sites for removal of friable asbestos include construction sites, ships, fences and soils.

Licensing/regulatory information

The model work health and safety (WHS) regulations and the Code of Practice: How to safely remove asbestos (2018) requires workers to hold certification for the class of licensed asbestos removal work they will be undertaking. Completion of this unit of competency is certification to undertake friable (Class A) removal work.

Occupational licenses are required nationally. This unit is required for all ACM removal workers engaged in the removal of friable ACM.

Candidates are advised to consult with the relevant state and territory regulatory authorities to confirm specific jurisdictional requirements to remove non-friable ACM.

## Target Cohort / Entry Requirements

This course is intended for:

This training is designed for individuals who are required to undertake high-risk (Class A) asbestos removal work, including:

- Licensed asbestos removal workers (or those seeking Class A licensing) responsible for removing friable asbestos.
- Construction and demolition workers involved in projects where friable asbestos may be present.
- Specialist asbestos removalists and remediation personnel working in hazardous environments.
- Supervisors, contractors and site managers overseeing friable asbestos removal and ensuring compliance with WHS regulations.

- Workers progressing from non-friable asbestos removal (CPCCE3028) to higher-risk friable asbestos work.
- Personnel working in environments with known or suspected friable asbestos, such as older buildings, industrial sites, ships, or large-scale demolition and refurbishment projects.

This course is specifically aimed at those who must meet strict regulatory and licensing requirements and safely manage the highest risk category of asbestos removal work.

Entry requirements may include:

- Prerequisite unit CPCWHS1001 Prepare to work safely in the construction industry
- Prerequisite unit CPCCE3028 Remove Non-Friable Asbestos
- Language, literacy, numeracy and digital skills (LLND test may apply)
- Minimum age of 18 (If under 18 parental consent is required).
- Physical requirements - A participant must be in good health and medically fit for work.
- All students participating in VET qualifications are required to have a Unique Student Identifier (USI).
- The RTO will provide the prospective student with a Course Suitability Checklist that will help the student and the Trainer / Assessor if the course is relevant and applicable to students' needs.
- The RTO will provide constructive and honest feedback to the prospective student if it is decided that the VET student does not yet have the LLN+D skills or meet the entry requirements to cope with the rigor of the training and assessment material and process.

## Selection Criteria

Learners should demonstrate:

- Reading and writing ability in varied contexts
- Oral communication and comprehension skills
- Basic numeracy and mathematical problem-solving

## Course Duration & Delivery

- **Delivery Mode:** Face-to-face
- **Delivery Location:** 1/6 Pippita Close Beresfield NSW 2322
- **Duration:** 16 hours (2 days)

## Assessment Information

Assessment methods may include:

- Written tasks
- Practical demonstrations

- Simulated tasks

## Resources to be provided by the VET Student

- Transport to training facility.
- Appropriate clothing, closed-in footwear.
- Students will be required to provide their own digital devices, able to access reliable internet

## Resources and services to be provided by the RTO

- A safe, inclusive and engaging learning environment.
- Pre-enrolment processes to ensure the course is appropriate and suitable for VET Students' needs.
- Access to LMS with personal secure login
- All Learning and Assessment resources.
- Public liability Insurance Cover (for on- and off-site training).
- Risk assessed facilities, equipment and processes for safety and duty of care, including accessibility.
- Policies and procedures to ensure and monitor delivery of high-quality services.

## Course Fees

- **Total Course Fee:** \$849.00 per person

Please note all course fees must be paid before issuing qualifications.

## Refund Policy

Refer to the Enrolment Agreement or Student Handbook for full terms, including refund conditions and withdrawal procedures. This can be accessed via the website <https://newcastlerescue.com.au/resources/>.

## Support Services

All students have access to:

- LLND support.
- Wellbeing and counselling referral.
- Trainer support (via email [enquiries@newcastlerescue.com.au](mailto:enquiries@newcastlerescue.com.au), phone 1300 356 686, or online platform <https://newcastlerescue.com.au/resources/>).
- The enrolment application process identifies any support needs and possible matters which may impact training and assessment via the Suitability Checklist.
- Contextualisation and additional support needs are reviewed for reasonable adjustment and implementation prior to training commencement.

- Support, progression and adjustments are reviewed throughout the nominal duration of the training.

## Recognition of Prior Learning (RPL) & Credit Transfer

All students may apply for RPL or Credit Transfer.

More information is available in the Student Handbook or from Newcastle Rescue and Consultancy Pty Ltd and RTO Website <https://newcastlerescue.com.au/resources/>.
